## About the Song **I feel the Sunshine**

The late afternoon sun breaks through the trees. Your eyes make contact with the golden rays of light, and suddenly you feel it: the spring in your step has returned, the spark of something new has been lit and life is sweet again.

*I feel the Sunshine* tells the story of an every-day experience we are all familiar with: that delightful moment when soft sunlight hits your skin and an inner joy begins to spread.

Inspired by the artist's travel and personal transformation on the magical island of Bali, *I feel the Sunshine* presents a love song to the sun, a symbol cherished across cultures— all while telling a deeply personal story of rebirth & new beginnings.
